This programme has funded the workshop on climate change and urban food systems, and we are calling for early career researchers to apply for the funded workshop places.

*(<sup>9</sup>within 10 years of PhD or with equivalent research experience – see ‘Eligibility Criteria’)*

During the workshop, early career researchers will have the opportunity to present their research in the form of a short oral presentation and discuss this with established researchers from the UK and partner countries. There will be a focus on building up links for future collaborations and participants selected on the basis of their research potential and ability to build longer term links.

The British Council and Academy of Sciences Malaysia will cover costs related to the participation to the workshop, including: travel (air and ground transport, visa and travel insurance), accommodation and meals. Participants will be responsible for making all the necessary travel arrangements within the allocated budget<sup>b</sup>.
