

English courses
Age 5 –11

Primary Plus

**Guided learning;
learning that
goes beyond
the classroom**

**New and improved for a more
rewarding learning experience**

English classes that go further so your child can go further too

With Primary Plus your child will learn English, and so much more. Our improved approach will help your child develop confidence that goes beyond their language skills.

Happy learners make confident speakers

We provide a safe, supportive and relaxed place to learn, where everyone feels welcome.

Tailored to your child's age and personal development, we create a fun and memorable way for them to learn English.

Space to learn. Support to grow.

For children aged 7-11

Our new, improved approach helps your child come to class more prepared, engaged and motivated.

Your teacher sets your child activities to do online at home so they can learn at their own pace. This will help them feel more confident and make more progress.

Before

At home

Activities, quizzes and games to prepare for class and build reading, listening and vocabulary skills

During

In class

More time to communicate with your teacher and classmates, practise grammar and receive more personalised feedback from your teacher

After

After class

Reflect and review, track progress, identify areas for improvement and celebrate success

For children aged 5-7

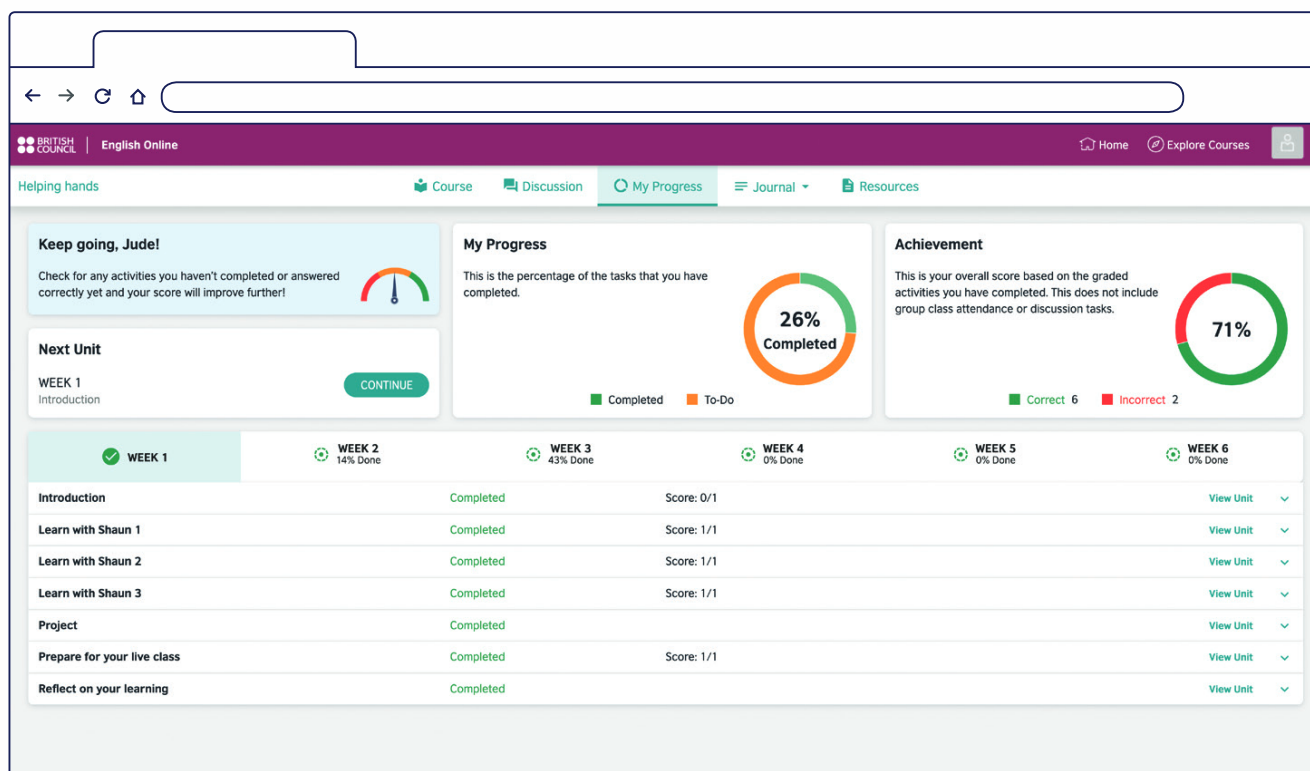

Interactive activities, videos and games will help them continue learning and practising their language skills at home.

Your window into the classroom

Your child's progress through the online guided learning is tracked, scored and presented in a personalised dashboard.

Together you can celebrate success and note areas for improvement.

Your child's teacher will feed back on any uploaded work on the dashboard, and provide a written report on your child's progress at the end of each term.

Activities from the learning hub

Students can study English before and after class by logging in to British Council's learning hub: <https://englishonlinelearn.britishcouncil.org/login>

Primary 1 and Primary 2 level students can access various activities such as quizzes and games which are linked to their module of study, and allow them to have fun in English at home.

Primary 3 to 6 students can prepare for the class through guided learning activities such as readings, videos, quizzes and games.
