7 Specification

As part of its Global Social Enterprise programme, the British Council is developing a series of baseline surveys of social enterprises. The first study explored the social enterprise sectors in Bangladesh, Ghana, India and Pakistan and the findings were published in October 2016. Since then reports on Kenya, Ethiopia and the Philippines have been published. The reports can be downloaded from the [British Council website \(https://www.britishcouncil.org/society/social-enterprise/reports\)](https://www.britishcouncil.org/society/social-enterprise/reports).

The objective of the baseline study is to provide a summary of the current size and scale of the social enterprise sector in Malaysia in order to be able to evaluate the future impact of the British Council's social enterprise programme and to be able to track how the sector develops in the coming years. This survey will, in part, be an update to and expansion in scope of the Malaysian Global Innovation and Creativity Centre (MaGIC)'s State of Social Enterprise in Malaysia 2014/2015.

In addition, this study aims to make an important contribution to the development of social enterprise globally, as it will allow for other actors to assess the progress and identify possible entry points for supporting growth or for participating in the sector.

The supplier will also be expected to conduct analysis and support for the report in Malaysia, as outlined below.

The following essential data is required:

- a. The total value of the social enterprise sector
- b. The total number of social enterprises
- c. The average annual turnover for social enterprises
- d. The average number of employees
- e. Total number of social enterprises that have increased the number of beneficiaries reached over the last year
- f. Total number of new employees of social enterprises in the last year
- g. The proportion of social enterprise employees who are women
- h. Total number of youth-led (under 35) social enterprises
- i. Total number of women-led social enterprises
- j. Breakdown of social enterprise by sector/focus
- k. The number of Higher Education Institutions delivering social enterprise related courses

The following data is desirable:

- a. The number of national/regional/state/institutional policy and/or practice that supports social enterprise e.g.: number of new national/regional institutions/partnerships whose purpose is to support social enterprises
- b. The number of changes to national/regional/state/institutional policy and/or practice that supports social enterprise e.g.: number of changes to policy/practice of pre-existing institutions/partnerships whose purpose is to support social enterprises

Having completed seven social enterprise surveys, the methodology and survey tools for the project have already been developed. The successful supplier will be expected to employ this methodology for the new survey in Malaysia. They will also be expected to work with the British Council’s global and local research partners in delivery.

The successful supplier will be expected to adapt the methodology if and when necessary in consultation with the British Council and the global research partners.

14 Evaluation Criteria

14.1 You will have your tender response evaluated as set out below:

Stage 1: Tender responses will be checked to ensure that they have been completed correctly and all necessary information has been provided. Tenders responses correctly completed with all relevant information being provided will proceed to Stage 2. Any tender responses not correctly completed in

accordance with the requirements of this RFP and/or containing omissions may be rejected at this point. Where a tender response is rejected at this point it will automatically be disqualified and will not be further evaluated.

Stage 2: The completed Qualification Questionnaire (*if used*) will then be reviewed to confirm that the potential supplier meets all of the qualification criteria set out in the questionnaire. Potential suppliers that meet the qualification criteria will proceed to Stage 3. Potential suppliers that do not meet the qualification criteria set out in the Qualification Questionnaire (*if used*) may be excluded from the Procurement Process at this point. Where a potential supplier is excluded at this point, its tender response will be rejected in full and not evaluated further and the supplier will automatically be disqualified from this Procurement Process.

Stage 3: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council's requirements evaluated in accordance with the evaluation methodology set out below. Information provided as part of Qualification Questionnaire (*if used*) responses may also be verified as part of this stage.

14.2 Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

Criteria	Weighting
Knowledge and Experience	30%
Methodology and Approach	25%
Timing and Staffing	25%
Costing – quote provided best value for money consideration	20%

14.3 Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.

7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested, but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.
5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4 Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex 3 (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. Prices must not be subject to any pricing assumptions, qualifications or indexation not provided for explicitly by the British Council as part of the pricing approach. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5 Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6 The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
